

## Clinically **Focused on patient safety**

Unique physical features and functions on the Agilia® Connect Volumetric and Syringe Pumps, along with the default population of your organization's approved parameters – pushed from the Vigilant Master Med software – helps ensure your clinical teams can more easily comply with best practices in patient safety, reducing the risks of unauthorized dosing and IV medication errors.

## Technically **Packed with powerful technology**

Though simple in form, Agilia Connect pumps and software are big on capability – able to adapt to the level of complexity of your institution's infusion practices, incorporating fully customized protocols across multiple care areas and IV drugs, all while logging and transferring individual infusion data on a regular basis using state-of-the-art cybersecurity practices.

## Functionally **Refined for intuitive operation**

Whether setting up an Agilia Connect Volumetric or Syringe Pump, configuring drug libraries in Vigilant Master Med, analyzing data in Vigilant Insight, or assessing technical performance in Agilia Partner, your team may find that every aspect of the Agilia Connect system helps make complex parts and processes simple to understand, so that both initial training and everyday operations are streamlined to help improve patient safety.

## Practically **Engineered for everyday performance**

From Agilia Connect Volumetric and Syringe Pumps highly-reliable, easy-to-repair design, to Vigilant Insight “ready-to-read” CQI reports, to Agilia Partner's built-in maintenance documentation, to Centerium's robust infrastructure, the entire Agilia Connect system helps your teams take on daily tasks with great accuracy and minimal effort.

## Exceptionally **Designed to drive best practices**

A proven, collaborative implementation process, led by multi-functional experts, and award-winning clinical and technical services teams, help ensure your users know how to put the whole Agilia Connect system – from pumps to software – to optimal use, so they can more confidently reach your organization's long-term infusion practice goals.

## Economically **An approach aligned with today's concerns**

Agilia Connect gives you value and reliability, and a 3-year preventative maintenance cycle with safety and efficiency.

# Agilia® Connect Infusion System

Integrated pumps, software,  
sets, and service

## Globally **Recognized as a proven partner**

Fresenius Kabi's medical device division is a leader throughout the world, with more than 35 years of infusion technology experience and an installed fleet of more than a million infusion pumps. Fresenius Kabi is also a steadily-growing force in the North American generic injectables space, having worked shoulder-to-shoulder with acute- and alternate-care institutions over the last decade to help ensure the availability and affordability of essential IV drugs for anesthesia and analgesia, critical care, and oncology.

# Your infusion ally

Every safely- and efficiently-administered infusion depends on the efforts of many healthcare professionals, who, like you, go the extra mile to make these healing moments happen. Your dedication is the inspiration behind Agilia® Connect's people-centric, partner-oriented approach that more thoughtfully responds to the real-world challenges you and your colleagues face. It's a system we are confident you'll all be happy to use.

Addressing important points in the infusion process, the Agilia Connect system of pumps, software, sets, and services, helps ensure everyone is armed with well-considered tools, aligned in their practice goals, and able to work as one big team.

## A system that supports you across your practice

### Pumps

A portfolio that performs everywhere within your healthcare facilities

**Agilia Connect**  
Volumetric Pump

**Agilia Connect**  
Syringe Pump

### Software

A suite that aligns everyone, from Pharmacy to BioMed

**Vigilant Master Med**  
Dose Error Reduction Software

**Vigilant Insight**  
Continuous Quality Improvement software

**Vigilant Centerium**  
Data management platform

**Agilia Partner**  
Service software

### Sets

Accessories that support safety and efficiency

**Volumat Line**  
Administration sets

**Kabi Access**  
Non-dedicated disposables

### Service

A team that delivers, from initial implementation on

Technical  
certification

### Dedicated Experts
